POLICEMEN WEAR BADGES.

They protect everybody against bad things like crooks and speeders. When you get lost they find you and buy you ice cream. When policemen aren't catching crooks they stand in the middle of the street and blow whistles when it's time to go.

Off-duty policemen like to take off their uniforms and relax with something pleasant and interesting like the newspaper. In Torrance more policemen relax with the Torrance Herald than any other newspaper because it's fuller of pleasure and interest. More secretaries, construction workers and tool designers think so, too. And no wonder, for the Herald is out front by far in circulation (it provides the only audited home delivery solid coverage of the Greater Torrance area). You can count on more from the Herald because more goes into the Herald!

Steel Band Performs Saturday

Saturday afternoon patrons of the Rolling Hills Plaza, Crenshaw Blvd. and 101 Hwy., will be entertained by the "Virgin Island Steel Band." The group, composed of seven musicians, will make their only Torrance appearance at the public concert.

The group plays a full repertoire of authentic Virgin Island pageantry music, including Gershwin, on four large steel drums.

Originating after World War II, the group used discarded oil drums to keep instrument cost at a minimum. Also in the instrument group are discarded steel barrels and garbage cans. They give out different notes because of indenting the tops. Today the group heats the barrels red hot and uses a sledge hammer to shape the heads until the proper tuning is obtained.

The Afro-Cuban dances, and the Virgin Island music has been heard by hundreds of thousands of Southern Californians.
